Prosecute Your Claims!

We, late Officers, Soldiers, Scouts, Rangers, Volunteers, Sailors, Marines, Masters, Mates, Wagon Masters, Teamsters, &c., who have served the United States in the War of 1812, the Law of 1850 gives each of you a Warrant for One Hundred and Sixty Acres! And to all who have died since the Act was passed, a Warrant for Two Hundred and Sixty Acres!

And to all the Widows, as if no Widow, the Minor Children are entitled to the Bounty!

We are prepared to promptly prosecute all claims for the same, and will supply Notices of Powers of Attorney, Certificates of Service, Declarations, Affidavits, &c., free of cost to applicants, by mail or otherwise.

When the Land Warrant is issued, we will send the Warrant at the same time, and remit a check for proceeds.

Land Bounty Laws.

By the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775, are entitled to 160 acres of land if they have not received it. Those who have received 80 or 90 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier, but to no others. Those who have been engaged in battle are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other act will have them promptly attended to by calling on or writing to A. L. RICHARDSON & CO., 31 Federal Exchange, Court Square, Boston, who pay cash for warrants.

N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case unless we obtain the land.

MEDICINES.

Buy me and I'll do You Good.

Now is the Time to Use

Dr. Ichabod's Root and Herb Bitters, Compound Dock Root, Sarsaparilla, Prickley Ash, Wild Cherry, Dandelion, Mandrake, Rhubarb, Root and Herb Jaundice Bitters.

Only 37 1-2 Cents for a Quart Bottle,

Only 25 Cents for a Pint Bottle.

Purify the Blood and you have health. Cleanse the Portal or Middle stream will be pure.

Decidedly the greatest Medicine for the least Money in the world.

The ladies all like them for they are sure to do them good.

The Root and Herb Bitters have cured the past year,

10,000 cases of CONSUMPTION,

12,000 cases of LIVER COMPLAINT,

12,000 cases of DYSPEPSIA,

20 millions of BAD BLOOD,

25,000 cases of COSTIVENESS,

13,000 cases of PILES,

19,000 cases of COUGHS and COLDS, and all cured and benefitted more than 200,000 persons besides.

Disease I have—I am sure of the cure,

Must be put and conquered by great Ichabod's plan,

Next gloomy Thunder, trembling fled the field,

By Ichabod's Bitters forced at last to yield—

Fled as the Serpent left the scene of strife,

Nor dared to face the glorious draught of Life.

Pale, Jaundice, Dyspepsia, Piles and Consumption,

The wretched life which causes such wretchedness;

By Ichabod's Bitters, are asked to yield

While Health and Strength united take the field

Are you intemperate then—if on this medicine trusted,

Soulsick and Jaded it will not disgust,

Nothing renders Rotten Health more base

Pleasant to take and always done good

Fifty Thousand Slain IN ONE NIGHT!

DUTCHER'S

DEAD SHOT for BED-BUGS!

Sleep in Peace!!

ALL good house keepers will be glad to hear of an article for the destruction of Bed Bugs, that is at once reliable and sure—needing no second application.

This preparation is a combination of Corrosive Sublimate with a Poignant Gum Resin, which gives it the consistency of a paint or varnish, which dries on wherever it is applied, and remains so for a long time. The perfect Terror of Death to the whole Bed Bug tribe.

Instances are known where Bugs in large numbers have been killed by it where none had been used later than the previous year.

Hotel keepers, Ship Masters, Boarding-House Keepers, and all others who have Bed Bugs to destroy, will find this an invaluable article, as a single through application will insure perfect security, from the Nocuous Vermin for a long time.

One Application is Enough

for the season. Apply it not only to the Bedstead, but to the cracks and crevices about the ceiling, (if the house is old.)

And you shall Sleep in Peace.

*** In the use of the Dead Shot there is no poisonous dust rising whenever you make the bed or sweep the room, as is always the case after having used Corrosive Sublimate dissolved in Alcohol.

Every bottle of the genuine Dead Shot has on the label the name of L. L. DUTCHER, which is the only test of genuineness. Price 25 cents.

Sold by C. W. ATWELL, under U. S. Hotel, Portland, Gen'l Agent for Maine, and by Druggists and Fancy Goods dealers throughout the world. mar8dawtly1

PATENT SELF HEATING

SMOOTHING IRONS!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but few articles have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

DISPATCHES FROM THE LADY OF THE MOST ANCIENT AND HONORABLE ASTRONOMICAL ASSOCIATION OF THE MOON.

"Permit me to assure you, my dear Lady, that I have been staring at you all the evening, though I have not had the honor of addressing you. You had better go home, I think, and study the Astronomy of the Moon, or, if you prefer it, the Astronomy of the Stars. You will find it far more interesting; for, I assure you, the Moon is not at all worth your attention."

"Why, I am sure, Mr. Astronomer, I never thought of looking at the Moon. I am sure I think one of the Stars is much the handsomest object in the heavens."

"Then, Madam, I am sorry to say that your taste is very bad. The Moon is the most beautiful object in the whole firmament. Besides, she has the most extraordinary reputation. I have myself been offered [illegible] for her."

"Indeed, sir! I should have thought that you had better go home to your wife."

"Madam, I have no wife. I am not married. I have devoted myself entirely to Astronomy, and I find that a wife would be a very great impediment to my studies. Besides, I am not at all sure that I should like to be married to a lady who is so much taller than myself."

"Sir, I am not taller than you are. I have measured myself by you, and I am sure I am not. You are very impertinent, sir, to say so. I am sure I am not taller than you are."

"Madam, I have measured you myself, and I am sure you are taller than I am. I am very sorry to say so, but I cannot help it. You are taller than I am, and I am sure you are taller than you are."

"You are very much mistaken, sir. I am sure I am not taller than you are. I am sure I am not taller than you are."

"Madam, I am sure you are taller than you are. I am sure you are taller than you are."

"Sir,

into the raccoon upon a log by wife—her husband ! raving, shrieking aristocrat, making experiments on the theory of perturbating nebulæ. Good night, sir. I must dream that a moment longer."

"Good night, Maria," replied the Astronomer.

The Astronomer is awakened in time. His face so brightened up with *his new idea*, that his wife fell to it with a will. After a while, the wife exclaimed : "What are you walking round the cradle for my dear as I down ? or you'll wake up the baby."

"I sit down in a moment, love—I am working out an astronomical problem. Look here ! I represent the Moon, I consider Italy as the Earth ; *wild*, you in my Son."

"Pish, pish ! You ought to consider the baby as your son ! How do you suppose ? How do you come out ?"

The Astronomer replied enough, as of talking to himself. "It is so, who'd have thought it ? is so strange, I cannot go around that cradle and face the baby all the time, if I rotate on my axis."

"Indeed, I could have told you of that before ; nobody but get it accomplished ever believed that moon turned round ! it must wear the same side of her every evening."

The Astronomer made no reply

[But the moon does rotate once in going round the earth, nevertheless, else how *could* she always keep the same face towards us ?]

The Journal's Review of Mr. Washburn's Letter.

In his review of Mr Washburn's letter, the editor of the Journal has but one material point. He assigns "State reasons" for not calling out in action the sentiments of Mr. Washburn's address of Pittsfield on the slavery question, and for not uniting with the anti-Nebraska men of all parties. "The State must be redeemed from misrule," it says.

"The *patrimony* of the State is to be *guarded*. The *treasury* is to be *watched* and *protected*. A policy is to be established that shall develope the resources of the State, and secure them to the operative and laborer."

State reasons, indeed ! What is the Journal doing to have "the patrimony of the State guarded—the *treasury watched and protected*?" It is laboring might and main to restore to power the old hunker conservative anti-prohibition dynasty which the people have overthrown for its very foolishness and corruption, and its disregard of the interests of the people. Is *that* the way in which to have "the patrimony of the State guarded?—the treasury watched and protected?" *Is that the way to secure or uphold the Maine Law*, which the Journal *professes* to favor? We think not. And yet it is precisely this, as I *only* this, which can be accomplished by the course now urged by the Journal, in standing out for an independent Whig organization, and looking for the defeat of the Republican Anti Nebraska party. Nay, it is precisely the way in which to *give the vote of Maine upon to Franklin Pierce*—that incarnation of doughfaceism—whose acts and whose administration the Journal has been so loud mouthed in denouncing. The indications are growing every day stronger and stronger that Franklin Pierce will be re-nominated as the "National Democratic Candidate" for 1856. His general servility to the demands of the South, and in particular *his effectual agency in the overthrow of the Missouri Compromise*, has made him the favorite of the slaveholders, and it is almost certain that they will make him the democratic candidate for re election. If the Whigs of Maine do not continue to sustain the Republican Anti-Nebraska nominations, what is the consequence ? Why, the State goes back into the hands of the old line Locofocos, and next year is to be given *up to the same Franklin Pierce*. Thus is the entrainment of which honest and true Whigs—anti-Nebraska men com principle—are warned, by such columns as the editor of the Bangor Journal.

The assumption that the present State administration is not honest—not regardful of the best interests of the Commonwealth, and not capable of protecting them—is *but* an assumption—made by extinct plan to cover up and conceal their own selfish hopes and corrupt schemes, founded upon the overthrow of the Republican party and the sacrifice of all the hopes of freedom in the State. Who believes that this administration is not as honest and capable as were those of the old locofoco regime ? Nobody. Are they to carry out their selfish schemes and hopes the men who have made the most noise in this "Straightout" Whig movement are willing to ally themselves with the Pierce and Douglas Nebraska men, and with the whole rum of liquor sellers, and throw the government and influence of the State again into the hands of the old party hacks whom the people have repudiated as not only selfish and corrupt in their views, but as ever ready to ally themselves to the slave power. Is this a result which true Whigs wish to see brought about ? We believe not. For one we do not desire to do this. The Whig party, however anti-slavery it may be, cannot possibly succeed of itself. The Republican party *can* succeed, and thereby keep the influence of Maine on the right side, in the contest for free principles. Who, then, will say that it is not wise, expedient and patriotic to cast in our strength to aid—to rescue with those who thank *with us* rather than with those who thank *against us*.

The Journal accuses Mr. Washburn of misinterpreting the editor, when he avers that we endorsed the sentiment that the slavery question overrides all others." Mr Sanborn now "wishes to explain" away the language a little further. He now says : we simply intended to endorse that sentiment in its *national* bearing." He would apply his *action* under that sentiment to the *Congressional* elections only. That is, he is willing, to let the old hunkers—the "Pierce and Douglas Nebraska men—have all the power, patronage and influence of the *State government* in their own hands—now and then in getting it back from the anti-Nebraska party—and to use it upon his own anti-Nebraska principles, is already willing to go in for anti-Nebraska men for Congress once in two years. Thus is the extent of his anti-Nebraska patriotism—even on paper. But he went it even this. No man can have his influence or vote for Congress unless he is a Straight out *Whig*. He and his associates *would not sustain any except Whig nor more last year*—and although he now admits that he did endorse in its natural bearing the sentiment that the slavery question overrides *all* others he will not support, anybody for Congress next year except a Whig nominee. In this view his inconsistency is apparent, even to less practised eyes.

There is another view, however, in which the inconsistency of men who talk one way and act another comes home with still greater force. While *professing* to be willing to go for anti-Nebraska members of the *Lower* they cry did the more important matter of United States Senators. They are also in the House and Long as Nebraska men to get possession of the State government, *which would upon secure the election of a Pierce and Nebraska man to the United States Senate in place of Hon. Hannibal Hamlin.* Yet at the Whigs act under a separate organization of this crisis, as the Journal urges them to do, and thereby cause the defeat of the Republican party—and they rush in the hunker dynasty, which will elect a *brace of Brandon's to send to northern doughfaces* to the United States Senate, to take the place of Mr. Hamlin. Their strength and influence thus given directly instead of placing in the Senate a man of the political stamp of Nathan Clifford or Joseph R. Smart. Do we, as Whigs, wish to place another daughface in the United States Senate ? If so, we have but to support a Whig organization and thus throw the State government into the hands of the hunkers. In this most important of all matters with which a State has to do, the editor of the Journal is certainly inconsistent with himself.

But that the Journal did *unreservedly* endorse the sentiment that the slavery question overrides all others clearly and properly inferable from the language it uses, in its issue of Friday, June 8th. After quoting the following passage from Mr. Washburn's address, of June 2, 1855, viz :

"This great consideration, (meaning the designs of the tyrannical slave oligarchy) now overrides all the old party divisions, and effete party organizations of the country. They must give way to it—I have already given way. MEN WHO THINK ALIKE MUST ACT TOGETHER. *Freedom must be not less than their slavery, and it very soon will be.* Every true REPUBLICAN must rally first under the banner of REPEAL. And then must take its place, if not the name, of that wise conservative party of 1820-'25 whose aim and purpose was—*the welfare of the whole Union, and the stainless honor of the American name.*"

The Journal distinctly says : "We heard that speech, and *endorse it ourselves* as truly Republican, and the same may be said of every political speech that Mr. Washburn ever made while advocating and upholding Whig principles."

Here was a clear endorsement of the *sentiments* of the whole speech. *So re erroneous was made in regard to any part*, as such loss of that which was quoted. When Mr. Washburn said, that "the old party divisions and effete party organizations were in the way," does any one suppose that he did not mean to include the Whig organization of Maine ? That meaning was perfectly plain, and as Mr. Sanborn *did not except* this very important portion of Mr. W's speech from his endorsement, it was perfectly fair to assert that he endorsed the sentiment of the whole. Mr. Washburn, it seems, so understood his language, and we certainly did—and *the sentiment of the letter is the same which was last year incorrectly construed by Northern Whigs*,—although some, has the editor of the Journal, refused to act thus out.

PRICES AND CROPS IN OHIO.—A private letter from Ashtabula, Ohio gives the following as some of the retail prices of produce there, just now, or as they have been quite recently :—Flour $12 , potatoes $1.5 , pork 10c ; beef 11 ; corn $1.10 ; hay $20 oats $1.25 Crops are looking well, although the weather is rather wet for corn. There will be a great crop of apples, but no peaches. The farmers of that portion of Ohio must have sold off the whole of their surplus products, upon the temptation of high prices.

THE GREAT VENTRILOQUIST.—Recollect that M. Bird, who is said to be the greatest ventriloquist in the world, gives one of his entertainments at this time at City Hall, *his remarkable* connection with his unparalleled "Magical Wonders and Mysteries."

Further Foreign News.

The following are some additional items by the Atlantic's mails :

THE FOREIGN LEGION.

The enrolment in the north of Germany for the Britannic Legion, is stated in Hamburg letters to continue as brisk as ever, and the number offering daily increasing. Great opposition was manifested by the authorities, however.

In Switzerland, recruiting is going on rapidly. The terms offered are described as very liberal.

OPERATIONS IN THE CRIMEA.

The following from the London Times correspondent, dated May 10th, will explain the necessity for the extension of the lines to the Tchernaya :

"The weather has been so hot for the last few days that fears may reasonably be entertained of the results of lengthened marches or extreme exertions in the burning trenches the temperature is sinking, and the atmosphere unwholesome. The possession of the Tchernaya will soon become of consequence to us were it only for the want of water. I am credibly informed that the rain which fell within the last week is of most unusual occurrence at this time of year. Henceforth till the month of July we can expect no rain. There will not be a drop of water from the sky to fill our wells and watercourses for months to come, and the fears I expressed several weeks ago with respect to a scarcity more terrible in its effects to man and beast than famine itself, are becoming more and more reasonable as the fierce hot sun day by day bakes the steppes and ravines of the plateau on which they are encamped."

There is a report that a considerable force will be detached from the besieging army to operate in the direction of Simferopol. In fact, one letter of the 19th states that preparations were being made for an expedition to the north of Sebastopol, so as to cut off the communications of the enemy with the place from that quarter. The third bombardment of Sebastopol is also an event which is shortly expected.

The London Times has the following comments upon the operations in the Sea of Azof, the particulars of which, so far as received, were given by telegraph :

"This result is the more glorious and the more extraordinary, as the Russians must long have foreseen that such an operation would sooner or later be attempted, and there is no point in the vast dominions of Russia, the loss of which is more formidable to that empire. Indeed, if the allies proceeded no farther than to occupy and hold the Straits of Yenikale and the adjacent peninsula of Kertch, which is easily defensible by any power having the command of the sea, they would remain in possession of the key to one of the principal ports of the Russian territories. In 1851 no less than one thousand trading vessels passed through the Straits. Tagarrog, Mariupopol, Berdianski, and Kertch, all commercial towns, which it has been the policy of the Russian government to protect and foster with the utmost care for the last 70 years, exist only by the freedom of trade between the Sea of Azof and the Euxine. The whole exports of the valley of the Don and its tributaries, and the communication between the Don and the Volga, which places the trade of that mighty stream in connection with the markets of Europe, all depend on this neck of the Sea of Azof; so that it is no exaggeration to assert that our occupation of Kertch will be felt to the interior of Russia, even to Kazan and Nishni Novogorod. On the Asiatic shore of the Straits the Ruskians have also destroyed their fortifications, so that both sides may be occupied, and the allied forces will threaten or blockade Anapa, which is the key to the whole Circassian coast.

A more favorable position, either for military or commercial operations cannot be found, and in the flourishing days of the Crimea, both in antiquity, under the Genoese, and even under the Khan of Kh zars, the chief seat of power and of wealth was always on the eastern extremity of the peninsula.

Among the other immediate advantages resulting from the occupation of the Straits may be reckoned the interruption of the supplies which the Russian army in the Crimea has hither to drawn from the Sea of Azof. Very large quantities of wheat, flour, and oats were found at Kertch, and upwards of 60 vessels engaged in this service, of which about half were burnt by the enemy and half were taken.

The maintenance of a large army in the interior of the Crimea will become a task of insuperable difficulty, if the whole of its supplies and food have to be brought by land across the steppes north of the Salgar. The Crimea itself does not produce corn enough to feed its own sparse population, and it was by communication with the inexhaustible granaries of the Sea of Azof that the Russian magazines were supplied. We now venture to say that it is easier for the allied powers, having the command of the sea and the coast, to maintain 200,000 men in the Crimea, than for Russia to maintain 100,000 men in the interior. There are very strong reasons for believing that the strength of that Russian army which at one time threatened Balaclava, and held our brave but suffering forces besieged in our own lines, will turn out to be very much below what it was at one time supposed to be. The last dispatch received from General Pelissier announces that the allied forces have now occupied the whole line of the Tchernaya and that this operation met no serious resistance, the Russians having speedily retired but not the fall. The probability now appears to be, that on the advance of the allies in whatever direction they may assume the offensive, the Russians will find themselves compelled to retreat, from inferiority of numbers and want of supplies, and the more so as the Sea of Azof being navigable for our steam gunboats, their base of operations may be threatened in the rear.

An Expression of Sentiment in Washington County.

CHERRYFIELD, June 14th, 1855.

To the Editor of the Whig & Courier.

The friends of temperance of Cherryfield have just held one of the most enthusiastic meetings. No such has taken place in this town for a long time. It was called to choose delegates to attend the State Temperance Convention to be held in Bangor, on the 26th inst, and to express some feeling with regard to the recent disturbance and catastrophe in Portland. The capacious hall was filled, and was graced by a large collection of ladies. Speeches were made, and resolutions passed, expressive of the sense of the meeting on the subject presented for consideration, and upholding the course of the authorities of Portland. The vote was taken by rising, and almost every individual in the hall, including the ladies, spontaneously and promptly answered to the call, affirmatively responding to every resolution. If such an expression should be general in the State, the friends of good order, temperance, and the Maine Law will be greatly increased by the events, though otherwise lamentable, referred to.

The Call for the Whig State Convention.

The Kennebec Journal has the following remarks upon the call made by the Bangor Journal, and "cheerfully" copied by the Augusta Age and other locofoco papers :

As we have said above, the call *purports* to come from the State Committee ; but no names are given, and we have the very best reasons for believing that the Whig State Committee never authorized any such proceeding. Since the call made its appearance, we have conferred, either personally or by letter, with nearly half the Committee, and not one of them knew that such a call had been issued, nor had they been advised of a meeting of the Committee, one or *more* that no such meeting was held.—We are therefore warranted in denying that the call was issued by order of the Whig State Committee, and equally warranted in asserting that it had its origin with a small clique of malcontents in Bangor, who, on the "table or rum" principle, have well nigh exhausted themselves in their work of political misrepresentation and slander. To dignify a gathering which will assemble under their call as a "Whig State Convention" is a farcical misnomer.

NEWS FROM HAVANA AND KEY WEST.—*Baltimore*, June 15th.—The steamer Isabel has arrived at Charleston, with Havana dates to the 9th inst. Havana was healthy, but business was dull.

Four Chinamen had been garroted at Cardenas for murder.

The dates from Key West are to the 10th.—Several large ships had gone ashore, but were got off without aid from the wreckers, and without material damage.

The sloop-of-war Cyane was ashore for three days, but got off uninjured. The Fulton and Cyane were the only national vessels at Key West.

The New York Times is in possession of a letter containing the following information—important if true. The writer, in relation to the subject of Cuban slave emancipation, says :

"The rumors for some time past in our midst begin to assume tangible and palpable condition ; and there is now no doubt but that the institution is seriously threatened to procure the abolition of slavery in Cuba, and put the island under the protection of Great Britain, in order to avoid more serious evil which is being in course of cultivation, under the policy of Gen. Jose de la Concha."

The correspondent of the New York Journal of Commerce writes on the same subject as follows :

"In relation to the rumor that propositions had been authorized to be made on the part of the Creoles of Cuba, for the manumission of their slaves to the abolitionists of Great Britain, and asking the protection of England in certain relations of a political character, which *may* be combined therewith, I have reason to believe, from investigation of the past few days that it has good foundation."

THE KINNEY EXPEDITION.—The whereabouts of Col. Kinney are at present unknown, but if he succeeds in reaching Central America he is destined to a grevious disappointment, as the cause in which his arms and ammunition were embarked, has been seized, and will undoubtedly be condemned. The bark Magnolia, Pharetred by the expedition, sailed from New York some three months ago, with irregular papers, and, after linge ing along the coast of Florida, 5 days, ventured into the bay of St. Josephs, where she was seized by revenue cutter Mc Calla, Captain Ottinger, under the orders of he Collector of Mobile, in obedience to a special order from the President. The consort of the Magnolia, the Amelia, had put to sea five days before the arrival of the cutter. The capture of the Magnolia will probably prove fatal to the expedition, which has truly had a hard road to travel."

FLOOD AT THE WEST.—The Cleveland Herald of the 12th instant, gives accounts of disastrous floods in that section, caused by the recent heavy rains. In Lorain county, on the two branches of the Black river, the damage has been serious, several sawmills and factories having been swept away, and the crops much injured by washing of the earth.

The Wheeling Gazette of the 12th inst, says that great damage had been done by the sudden rise of the Alleghany river. Large quantities of lumber in rafts having been washed away. The Gazette says that the lumbermen will have good reason to remember the spring of 1855, as such destruction as has been witnessed this year is unprecedented.

WRECK OF AN EMIGRANT SHIP.—*Quebec*, June 13.—The ship Lord Amherst Castle, went ashore at Bird's Rocks at 8, P. M., on the 4th of June. She had 537 passengers on board, 240 of which were taken off by the Sophia McKenzie 200 tons of the cargo, consisting of salt and rice, were thrown overboard. It is supposed that the vessel with the remaining passengers will not be saved.

Enlistments of men for the British army, between the ages of 9 and 40, are being made.

FIRE IN EAST MT. VERNON.—We learn that the store at Wing's Mills, East Mt. Vernon, owned by Mr. Isaac Goodridge, was entirely destroyed by fire, with a little contents, about midnight of Thursday, the 31st ult., under circumstances which induce the belief that it was the work of an incendiary. Mr G. lost his dwelling house about a year since by fire, and it was then suspected that it was the work of a certain evil-minded person. Suspicion rests upon the same individual as the guilty author of the last outrage. We hope the scoundrel will be brought to speedy justice. [Kennebec Journal.

THE SLAUGHTER OF BEEF HOGS COME DOWN.—The Chicago Democrat says that immense numbers of cattle and hogs are now being shipped from that city for eastern markets. The cattle have been brought from Texas and wintered in Illinois, and are now being sent forward over the Michigan Central and Great Western railroads. One train left Chicago with 415 cattle and 1165 hogs.

A despatch from Philadelphia was received at Concord that Mr. Hale must not be elected Senator on any consideration, as it would break up all chances of a national organization of the Know Nothings. But it proved of no avail.—A concord correspondent well says—"To the very that the Union is in danger, the reply is, as is freedom in danger."

LOOK IN ABUNDANCE.—We have not seen so great a run of logs in our river in many years as during the present month. Ira Reed & Page's boom, opposite this city, there are already from thirty to forty thousand logs ; and the shores for miles are completely lined with booms, rafts, &c [Hallowell Gazette.

THE KNOW NOTHING COUNCIL.—*Philadelphia*, June 15th, 9½ P. M.—The Know-Nothing Convention is still in session, but nothing of political importance has transpired. It will not adjourn, most probably, until to-morrow.

Henry W. Severance, Esq., eldest son of the late Luther Severance, arrived in our city last week from San Francisco, where he has resided for the past six years. He will return in the autumn, we understand, and make California his permanent residence.—*Kennebec Journal.*

PROGRESS OF THE INSURGENTS IN MEXICO.—*New Orleans, June 4.*—Our Mexican advices mention that Guadalajara was in the possession of the insurgents, and that Victoria and Saltillo had joined the revolutionists.

New Market and Fresh Fish.

Bickford "opens the Oyster."

Grateful to the citizens of Bangor for their generous patronage for the past eight years, during which I have served them in the Old Market House, now among the ruins of the past, I have the pleasure to announce to them, that, driven from my old quarters by the improvements of the age, I have the honor to dedicate a portion of the New Market, on Central Bridge, with a large invoice of *the best* that salt and fresh water affords, direct from the net and hook.

In my new and commodious quarters the inhabitants of Penobscot River and Bay, Moosehead Lake and other Ponds, will always be represented by the best of their species. A daily Congress will be held, to which my friends are cordially invited.

The Halibut with belly white,
And Salmon hard and strong,
And Cod and Shad are to be had,
With slippery Eels and long
Mackerel and Smelts, and Lobsters red,
All in their proper time,
Will jump and come upon the run,
By dropping them a line.

I have long been engaged in a seedy business, but without its compromising my reputation for fair dealing. All fish that come to my net are honest, no sharks being admitted. I flatter myself that by catering to the piscivorous wants of the public during the past eight years that I have been instrumental in conducing to the health and happiness of the community—the superior merits of a fine diet being universally acknowledged.

Still willing to devote my labors for the good of the public I respectfully invite the attention of the citizens to the supplies I am every day receiving. The warm weather is coming, and the productions of the cool waters freshly received may always be found, together with dry, salt and smoked, and shell fish in their season, at

THE KNOW NOTHING COUNCIL—SECESSION OF NORTHERN DELEGATES—THE NEW PLATFORM. The New York Tribune of June 14 says: In view of the secession of the National Council last night a meeting of the delegates was called this forenoon. Hon. Henry J. Gardner, of Massachusetts was appointed chairman, and a committee of nine was appointed. Much anxiety was expressed, and a resolution to appeal from the Council to the people in behalf of right principles. The following address was submitted signed by the delegates present, and ordered to be published as the address of the United States Council.

To the people of the United States:

We, the undersigned delegates of various States, assembled in National Council in the city of Philadelphia on the 11th day of June 1855, organized under the existing state of affairs, do the following principles:

The unconditional eradication of the three several components known as the Missouri Compromise, which was destroyed in utter disregard of its principles and in violation of its pledges and compacts, and no plea for its continuance or renewal shall be entertained, but the total and unconditional repeal to maintain the positive prohibition of slavery in the territories of the United States north of the line of thirty-six degrees thirty minutes north latitude, commonly known as the Missouri Compromise line, until the object for which it was made shall have been consummated by the admission of Kansas and Nebraska as free States.

That the right of settlers in the free and undisturbed exercise of the elective franchise, guaranteed to them by the laws under which they reside, shall be promptly protected by the National Government whenever violated or threatened, and that we cannot conscientiously act with those who will not aid us in the correction of this great national wrong, and who will not even consider that consideration of their full discharge.

We further declare our continued and unwavering determination to use all honorable efforts for such a modification of the naturalization laws, and by such an elevation of public sentiment as will preserve the true interests of the naturalized citizen, guarantee the three vital principles of American government,—spiritual freedom, political and free schools,—thereby promoting the general welfare of American citizens throughout America.

That we invoke the arm of the legislature to arrest that growing evil, the deportation by the authorities of paupers and convicts to our shores; and that as our national Constitution recognizes the Executive of our country to be of foreign birth, we deem it equally necessary and important that our diplomatic representatives, at home and abroad, possess no foreign prejudices to warp the judgment, or influence their official acts.

Here follows the signatures of the delegates from all the Northern states except Pennsylvania, New Jersey and New York, although it is thought New York will be the only northern state submitting to the platform adopted by the Council.

The delegates from the New England States whose signatures were appended to this platform of principles were as follows.

Massachusetts—Henry J. Gardner, Henry Wilson, J. W. Foster, A. C. Lane, H. W. Bugg.

New Hampshire—Anthony Colby, Jesse Mann, Stephen B. Shurtleff.

Vermont—Hayden & Fletcher, Horace Kingsbury, Joseph H. Barrett, Evelyn Pierpont, Joseph A. Hatch.

Maine—Louis O. Cowan, A. S. Richmond, Benjamin D. Peck, John L. Stevens, John S. Ward, Joseph Cassell, James M. Lincoln.

Connecticut—Daniel H. Buck, Thomas Clark, J. J. Sperry.

Rhode Island—Jabez C. Knight, Nathaniel Greene, William Hallowell.

HISTORICAL CORRESPONDENCE OF THE WASHINGTON UNION. Portland June 4, 1855

Speaking, &c.—and I have seen the very hole made by the bullet that went through Mr Poor's hat. Yes, I have put my finger into it—but he was not in but the hole in the wall where it went to itself after exhausting such had taste. The fact is, not that a lot of lead should go where it did, but that it should go to such spot of natural course and all for nothing. What if Mr Poor who sent his gun to shoot rogues. It must have been intended, with so much forethought and deliberateness, that so fixated the fact, raise the story to more renown than if Mr Poor's progress had been at the top of the Washington Monument at the use of the hook, the course of it have been more unnatural than that of the State of Maine. You might as well go and tell the door of the Mad Office and tell him that he heard the owner of the hat say "that was a bullet!" and of course we should be sorry—of course we do. Mr Poor was not over the hill but over his head and

I would be surprised at the quiet pressure by which the excitement in all the cities, as if they are only straining at political phrases. The originators of the riot, are not yet have extracted, so far as Portland is concerned and their opponents are quietly using them to produce the same effect.

The statement of the Mayor which he left the Board of Aldermen, is generally [illegible] and the denial of the State Messenger designed for the thousandth time to misrepresent the whole matter, but for the information of voters in other parts of the State who would be deceived into opposition to Maine Law. No man ever had more bitter enemies than Neal Dow, but they are ashamed of their own cause by the exercise of common sense. Sober second thought is coming in and will ultimately do its work in this State. The opposition must prevail that the law was put down with a great pleasure but does credit to the city government and the police would have been the disgrace to mobs in all parts of the country.

The Bangor Journal would save speedily [illegible] establishment of riotous lessons [illegible] city.

A letter says: It is stated in the New York papers that an association is to be formed in that city for the purpose of getting together a "Congress of Nations" composed of living specimens of the different races, of every nation upon the face of the earth, all in their native costumes—provided with music; preference is to be given to such as play upon musical instruments—(Jubilee singers not referred to)—as prizes and other attractions. It is said that a good beginning has been made towards raising $100,000 for the object. It is unnecessary to add, perhaps, that Barnum's name is mentioned in connection with this movement.

THE EARLY AT THE WEST. The receipts of breadstuffs at the upper lake ports are tremendous, and in the face of the immense receipts of corn, and the reduced demand, high nominal, with limited distilling business, the present prices of this description of grain cannot be maintained.—435 bushels were received at ports on the Upper Lakes in one day. At Buffalo and Oswego the receipts reported on Monday reached 262,000 barrels of flour, 82,897 bushels of Wheat, 281,07 bushels of Corn, and 193,275 bushels Oats.

We are informed by a gentleman who resided [illegible] Provincetown, that "within a few days, two cargoes of Spruce deals were sold at St. John, and four French ships to go to France, at ten dollars per thousand. This demand has grown out of the interruption of the Baltic trade and must be interpreted as a dealer in that kind of lumber.—Kennebec Journal.

Sealed Proposals

Will be received at the U. S. Engineers Office, Fort Knox, Bucksport, Maine, to the 20th of June, for the construction of a Breakwater at Owls Head, to consist of dock-work, extending from the main land to Eagle Island Ledge, a distance of about 330 feet, 30 feet wide at bottom and 20 on top, which is to be covered with about 12 inch plank. The wood work to be of pine and hemlock, part round and part hewn, the latter to square from 9 inches to 12; and the stone to be of blocks weighing from 500 pounds to two tons, and over, and so hard as not to wear easily by attrition.

The work will range in hight from 10 to 24 feet and all that is exposed at low water, about fifteen feet, must be of hewn stuff; the ties and pieces under water may be of round. All the different parts to be firmly secured together by substantial bolts and large iron ties.

Each bid must give the names of two responsible persons who have consented to act as sureties for the faithful performance of the contract, otherwise no notice will be taken of it.

Further details, and all necessary information, can be had by applying to

First Premium PIANO FORTES!

WE have received the agency, for Bangor and vicinity, for the sale of

Brown & Allen's Piano Fortes,

which are acknowledged by competent judges to be, in the essential requisites of a Piano, the best now made in this country.

Mr Brown was of the old firm of Brown & Hallett, whose Pianos have been long in the market, and are much admired for their durability and purity of tone; subsequently ten years foreman in the justly celebrated manufactory of the late Jonas Chickering, Esq., where he perfected and applied his PATENT GRAND ACTION.

Piano Fortes of their manufacture are distinguished for EVENNESS, pure musical quality of tone, and superior elastic action. See extract from Report of Committee on Musical Instruments, at the Rhode Island society for the encouragement of Domestic Industry, holden September 12th to 16th, 1854:

"After a careful examination of the workmanship, externally and internally and after repeated trials and hearings, your Committee feel prepared to say that this (Brown & Allen's) Piano Forte is one of the very best they have ever met with in the course of some seventeen years observation of the progress of Piano Forte manufacture in this country. In purity, combined with power and mellowness of tone, in evenness of tone from the bottom to the top of the scale, in the great excellence of the action, in thoroughness and elegance of workmanship throughout, in all the qualities, in short, which unitedly constitute a first rate Piano Forte this instrument, in the opinion of your Committee, has not been surpassed by any Square Piano Forte hitherto produced among us, and they consider it eminently worthy of the highest premium in this department."

Read the following certificate from a well known competent judge

—CERTIFICATE—

To whom it may concern.—I have had occasion to use, and to select for many of my friends, Piano Fortes made by Messrs Brown & Allen, and I do not hesitate to say that their instruments are not second to those made by any other person or persons in the city, and in many of the more important points, such as purity of tone and neatness of touch, durability &c., I cannot but give to them the preference. I would therefore recommend to those who may wish to purchase, to call at 354 Washington street and examine for themselves. B. F. BAKER

DR. J. H. SCHENCK'S SEA WEED TONIC

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of common weed growing on the Boston shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, such as

Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Limbs, Palpitation of the Heart, Hot Flushes and Dryness of the Skin, Costiveness, Yellow Skin, Jaundice, Dizziness, Drowsiness, Weakness of the Limbs, Shaking Spells, and all of these painful symptoms attending a Diseased Liver.

Nearly every person in one or less afflicted with Dyspepsia, or some of the complaints connected with it, and it is with feelings of pleasure that Dr. Schenck can announce to it such the discovery of this virtue of the Sea Weed, which is just the remedy for these ailments. Dyspepsia and the many diseases arising from it, is caused by the defective action of the gastric juices, and wherever the powers of the stomach in the effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies all those principles of the bile and gastric juice, and the food is digested naturally. In fact the Tonic so nearly resembles the natural gastric juice that chemists even find it difficult in distinguishing them. It digests the food and keeps them the stomach, thus enabling it to secrete the proper quantity and quantity of gastric juice, and dyspepsia and all its distressing symptoms disappear.

It is now known to exist in one or five like the Dyspeptic, from addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitation of the Heart, Chills and Fever, Grave, Dropsy of the Kidneys, Nervousness Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Tasty Low Spirits &c. &c. In all each of these various but unfavorable state of the stomach, and here is a newly discovered *remedy by* the trial my sum of one dollar, that will cure all the train of diseases.

Now, Dyspeptic, will you not make one effort to quite remedy that will cure you? Time choice lies upon you. The Sea Weed Tonic is taken in tea-spoonful per dose, regard appetite and good digestion is going on right but be, always to use with the meals, and one *bottle* generally effects a cure. Whenever the bowels are costive, the tongue furred, or the stomach sour or disturbed, the tonic is required, or the dyspeptic symptoms will soon follow. Dr. Schenck's Mandrake or Liver Pills are to be used. One box of these Pills is usually each bottle of the Tonic, and will be found in every case of the best recovered within label.

SCHENCK'S MANDRAKE PILLS

Will be found in pieces, those qualities necessary to the total eradication of all bilious matter, prompt to start the secretions of the liver and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for the so stubborn complaints, which develope all the results produced by a Mercurial free use of Calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. But the properties of certain vegetables contains all the virtues of calomel, without its painful tendencies, is now an admitted fact, by medical and reputable by scientific researches; and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the common roots and herbs of the fields.

The Pills open the stomach and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons. The exercise of the liver is promoted by these Pills, as will be seen by the altered color of the stools, and disappearance of the sallow skin pleasant and cleansing of the tongue.

Ample directions for use accompany each box of Pills, and the price of a quart Bottle of the Sea Weed Tonic and box of Pills combined is only one dollar. But separate boxes of Pills can be had of any of the agents for 25 cts.

These remedies are prepared under the personal superintendence of Dr. J. H. Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c., &c., and the unequalled virtues of the celebrated Resparatory Pill, examine them and detecting all diseases of the Lungs, Heart &c.

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, where they not substantiated by persons of such exalted position and character as to rebut the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Ayer's Cathartic Pills are Recommended for their use in the complaints which they have been found to cure.

For Costiveness.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Piles, and the cure of one complaint is the cure of both. No person can feel well while under a restless habit of body. Once at should be, as it can be, promptly relieved.

For a Foul Stomach, or *Morbid Inaction of the Bowels*, which produces general depression of the spirits and bad health, take from four to eight Pills at a dose, in smaller doses afterwards, until activity and strength is restored to the system.

For Sick Headache, Sea Sickness, Nausea, Pain in the Stomach, Dirt, or Sale take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these until their kindred disorders become your stomach a fount.

For Dysentery, Flux, Piles, and all Diseases of the Stomach, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purifying and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients whose duty it is to strictly forbids that you should purify yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

To Purify the Blood, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which now the seeds of miserable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections* arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhœa, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side, the skin and the whites of the eyes become a greenish yellow; the stomach acid, the bowels sore to the touch, the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhœa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Forms* are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a Dinner Pill, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual for the purpose for which a dinner pill is employed.

KENNEDY'S

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst scrofula down to a common pimple. He has tried it in over fifteen hundred cases and never failed except in two. He will warrant his powerful cure two bottles for five dollars, and any one who is troubled with the worst humor in the world can try it at his expense.

Two bottles are sufficient to make a perfect cure in the most obstinate case.

Three to five bottles will cure the worst case of Scrofula in the world.

Two bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humors on the face.

Two bottles are sufficient to cure the worst case of Ringworm.

One bottle and a half will cure the worst case of Tetter.

Two bottles are warranted to cure the worst case of Itch on the human subject.

Two to three bottles are warranted to cure the most desperate case of Salt Rheum.

Three to six bottles are warranted to cure old Rheum.

Five to eight bottles will cure the worst case of Scrofula.

A trial will always be required from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so unpalatable to those who have not tried all the wonderful medicines of the day as, that a common weed, growing by the fences, pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. Then are no ifs nor ands about it, nothing to be taken but not yours. He has published over a thousand bottles of it in the streets of Boston and Lawrence, the cities of its discovery. It has already done some of the greatest cures ever done in Massachusetts. He asks it to strictly forbids that you should purify yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

To Purify the Blood, they are the best medicine ever discovered. They should be taken freely and frequently and the impurities which now the seeds of miserable diseases will be swept out of the system like chaff before the wind.
